PROFESSIONAL SUMMARY

Final-year B.Tech student in Artificial Intelligence & Machine Learning (CGPA: 9.57) with hands-on experience in Full-Stack development, backend engineering, and AI applications using Python, FastAPI, Django, React.js, and Generative AI. Strong foundation in DSA, DBMS, OOPS, and scalable software development.

EDUCATION

B.Tech, Artificial Intelligence & Machine Learning – Aditya Engineering College	Expected 2027	CGPA: 9.57
Intermediate (MPC) – Narayana Junior College	2023	CGPA: 9.78
SSC – Narayana School	2021	CGPA: 10.0

TECHNICAL SKILLS

Programming Languages: Python, Java, C, C++, SQL, JavaScript
Frameworks & Libraries: FastAPI, Django, Flask, React.js, Node.js, Express.js, Celery, TensorFlow, Keras, Scikit-learn
Databases: MySQL, MongoDB, Redis
Backend & APIs: REST APIs, Microservices, Background Workers, RabbitMQ, Celery, Pydantic, API Integration
DevOps & Tools: Docker, Docker Compose, Git, GitHub, Postman, pytest, Linux, Render, VS Code
Generative AI: LLMs, Prompt Engineering, RAG, LangChain, AI Agents, Llama 3.3, Groq API
Machine Learning: Supervised & Unsupervised Learning, Feature Engineering, Hyperparameter Tuning, Model Evaluation, Linear Regression, Logistic Regression, Decision Trees, Random Forest, SVM, KNN, XGBoost
Deep Learning & NLP: CNN, RNN, LSTM, NLP, Computer Vision, Sentiment Analysis
Core Subjects: Data Structures & Algorithms, OOPS, DBMS, Operating Systems

PROJECTS

- Asynchronous NLP Service with Task Queue and REST API** | *FastAPI, Celery, RabbitMQ, Docker Compose, MySQL* [GitHub](#)
- Built an asynchronous NLP backend using **FastAPI**, **Celery**, **RabbitMQ**, and **MySQL** to process long-running AI tasks through background workers.
 - Designed a containerized microservice architecture using **Docker Compose** with FastAPI, Celery Worker, RabbitMQ, and MySQL, improving reliability and maintainability.
 - Developed REST APIs with Pydantic validation and verified functionality using **Postman** and **pytest** for API and end-to-end testing.
- AI-Powered Universal Microservices Translation Suite** | *Django, Flask, Groq, Llama 3.3* [Live Demo](#)
- Developed a Django-Flask microservice architecture with SQLite logging for multilingual AI translation.
 - Built a real-time multilingual voice-translation pipeline leveraging Groq's Whisper-Large-v3 and Llama-3.3-70B models, achieving zero-shot voice-language classification and context-aware idiomatic translation.
 - Implemented non-blocking asynchronous pipelines with the JavaScript Fetch API and secured credentials via **python-dotenv**, eliminating browser reloads and client-side credential exposure.
- High-Performance ML Feature Store Backend** | *FastAPI, Redis, Docker* [GitHub](#)
- Developed a FastAPI and Redis-based ML feature store with 14 ms latency for 100K+ feature updates.
 - Containerized the system using Docker Compose with Pydantic-based validation, improving deployment consistency and data integrity.

INTERNSHIPS

- Infosys Springboard Internship** – Digital Civic Engagement & Petition Platform | *MERN Stack Development* [Certificate](#)
- Developed a full-stack civic-engagement and petition platform using React.js, Node.js, Express.js, and MongoDB, with REST APIs for petition creation, authentication, and user management.
 - Collaborated cross-functionally within an Agile team on sprint planning and requirement analysis, debugging backend integration issues to improve query performance and technical communication.
- Machine Learning Intern – 1Stop.ai** | *Python, Scikit-learn* [Certificate](#)
- Built a bike-demand prediction model on a real-world dataset of 17,000+ records, performing extensive feature engineering, preprocessing, and hyperparameter tuning across Random Forest and XGBoost.
 - Achieved a 92% R^2 score through rigorous cross-validation, delivering demand-forecasting insights directly applicable to real-world inventory planning.

CERTIFICATIONS

Oracle Cloud Infrastructure 2025 Foundations Associate
Google Cloud Career Launchpad – Generative AI Leader Track
NVIDIA – Fundamentals of Deep Learning
Cisco: Python Essentials 1 & 2, Data Science, Modern AI, CSS Essentials
NPTEL: Artificial Intelligence, DBMS, IOT
Accenture Software Engineering — Deloitte & Tata GenAI Virtual Experience
GeeksforGeeks Full Stack — Coursera React.js — Udemy Python Bootcamp & C Programming

[View All Certificates](#)

ACHIEVEMENTS

Academic Excellence: 10.0 CGPA in B.Tech First Year
Google TechSprint Hackathon Finalist — TCS CodeVita Season 12 – AIR 2201 — 250+ DSA Problems Solved on LeetCode
1000+ CodeChef Problems Solved — HackerRank (5-Star: Java, Python, SQL, C++, Problem Solving) [LeetCode](#) | [HackerRank](#) | [CodeChef](#)
